**THE 21ST CENTURY
REPARTITIONING
OF AFRICA
&
THE ANTI-FRENCH
BACKLASH**

THE 21st CENTURY REPARTITIONING OF AFRICA & THE ANTI-FRENCH BACKLASH

- In 1884, Africa was balkanized at the Berlin Conference
- The Scramble for Africa was described as the invasion, annexation, division, and colonization of Africa by 7 European nations:
 - Britain, France, Portugal, Spain, Germany, Belgium, and Italy
- Only Liberia and Ethiopia were left out
- Africa was divided without consideration of local population and culture

FOUR TYPES OF IMPERIALISM

AFRICA – INDEPENDENCE OR RECOLONIZATION?

"The legacy of neocolonialism is a cycle of dependency that hinders the progress and self-determination of nations." - **Nelson**

Mandela

BALKANIZATION OF AFRICA – THEN AND NOW

AFRICA'S COLONIAL LORDS

- France and Great Britain are the major colonial masters in Africa

• Great Britain

Nigeria, South Africa, Kenya, Egypt, Ghana, Zimbabwe and many others.

• France

Algeria, Morocco, Tunisia, Senegal, Ivory Coast, Mali & others.

• Portugal

Angola, Mozambique, Guinea-Bissau, Cape Verde & Sao Tome and Principe.

• Germany

Cameroun, Tanzania, Namibia.

• Belgium

DR Congo

• Italy

Libya, Eritrea, and Somalia

FRANCOPHONE AFRICA

Attributes of French colonial administration

- Assimilation policy
- Direct rule
- Cultural paternalism
- Infrastructural development

Attributes of French post-colonial influence

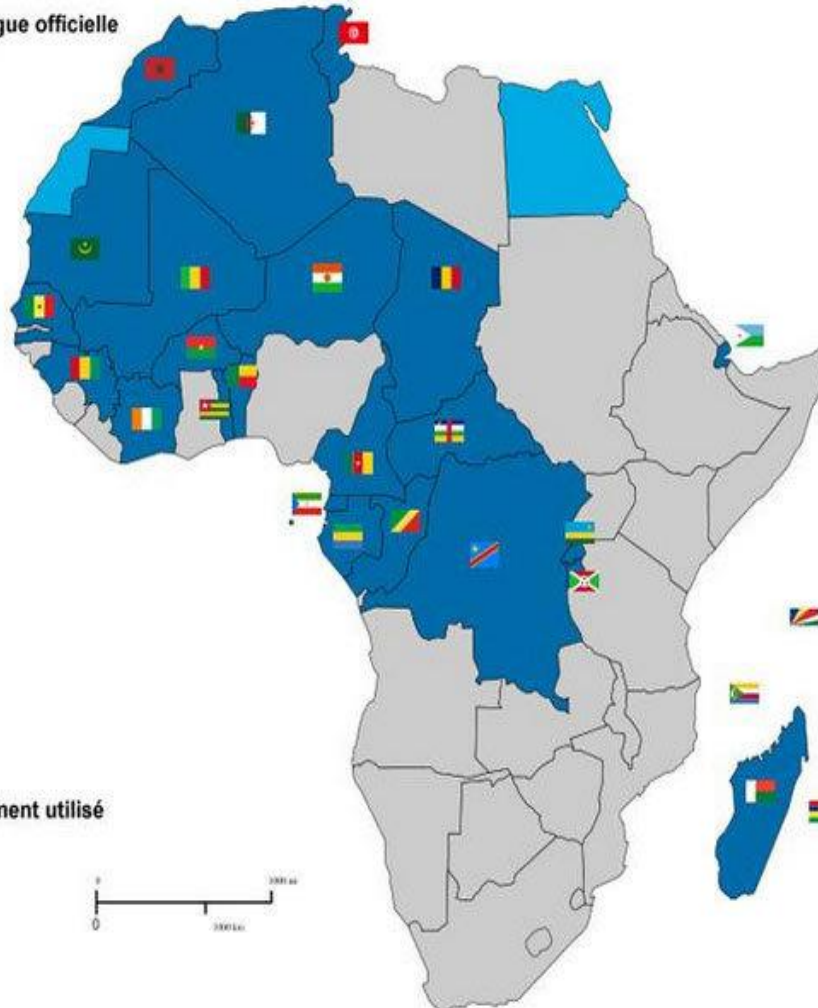

- Military presence
- Centralized monetary policy
- Political influence
- Economic exploitations
- Post-colonial agreements

ANGLOPHONE AFRICA

Attributes of British colonial administration

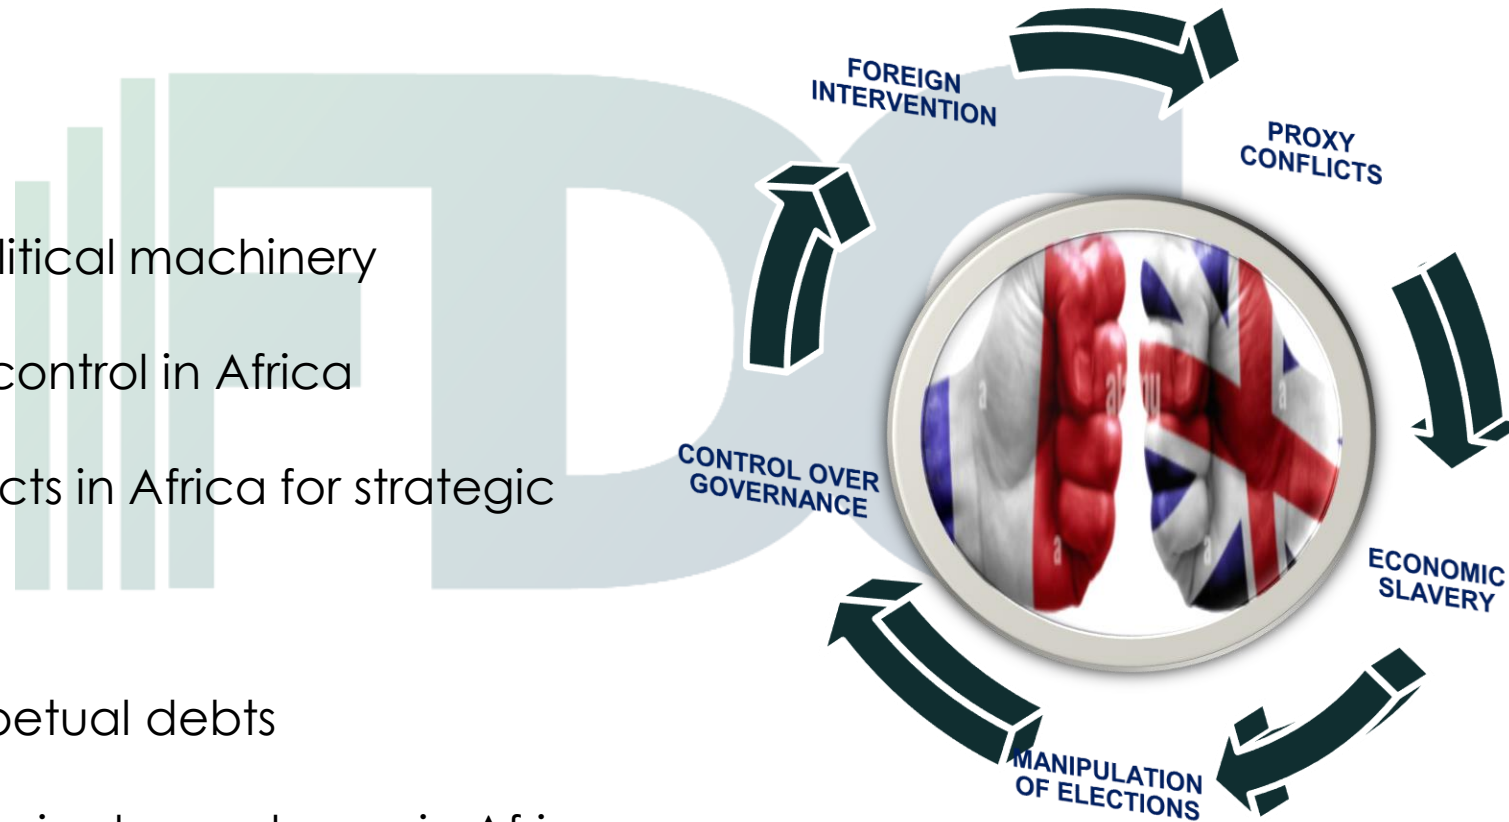

- Indirect rule
- Cultural autonomy
- Limited infrastructural development
- Economic exploitation

Attributes of British post-colonial influence

- Political influence
- Economic dependence
- No military presence
- Decentralized monetary system

AFRICA IN SHACKLES OF NEOCOLONIALISM

- The colonial masters gave Africa **ceremonial** independence
- However, they still
 - Control Africa's political machinery
 - Strive for resource control in Africa
 - Initiate proxy conflicts in Africa for strategic gains
 - Keep Africa in perpetual debts
 - Perpetuate economic dependence in Africa through aid

AFRICA ON THE PATH TO REDEMPTION

- What is Africa doing to achieve political and economic independence?

Africa grapples with coup d'état contagion

- 83% (45) of the 54 African countries have experienced at least one coup attempt since 1950
- Africa accounts for 44% of global coups since 1950
- 10 coup attempts on the continent since 2019

Coup d'état could be a protest against:

- Colonial dominance
- Misrule and bad governance
- Electoral impunity
- Tenure elongation

PRE-COUP STATE OF AFFAIRS

- Countries with coup attempts are **characterized** by:
 - Underdevelopment
 - High level of misery and poverty
 - Poor democracy rating
 - Weak legitimacy
 - Botched election/tenure elongation

FROM CRISES OF ORDER TO CRISES OF DISORDER

- Africa faces waves of crises of order – civilian coup/military coup
- The continent is on the road to crises of disorder – balkanization/African uprising

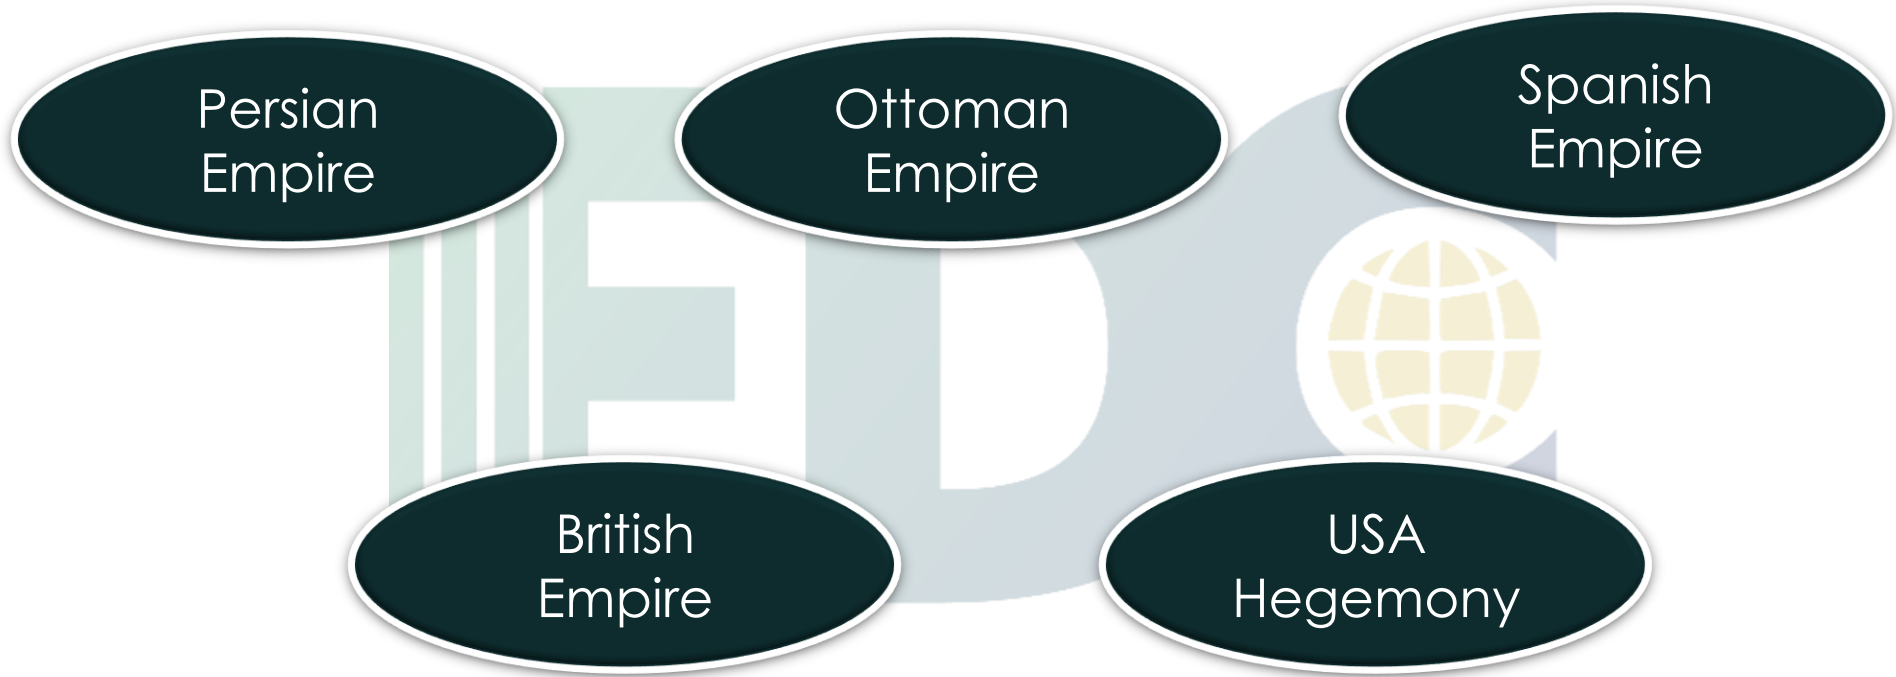

- Nigeria is a federal government
- Risks of crisis, anarchy & fragmentation into Yugoslavia situation
- Most countries under military rule are unitary governments

CYCLICALITY OF THE GLOBAL ORDER

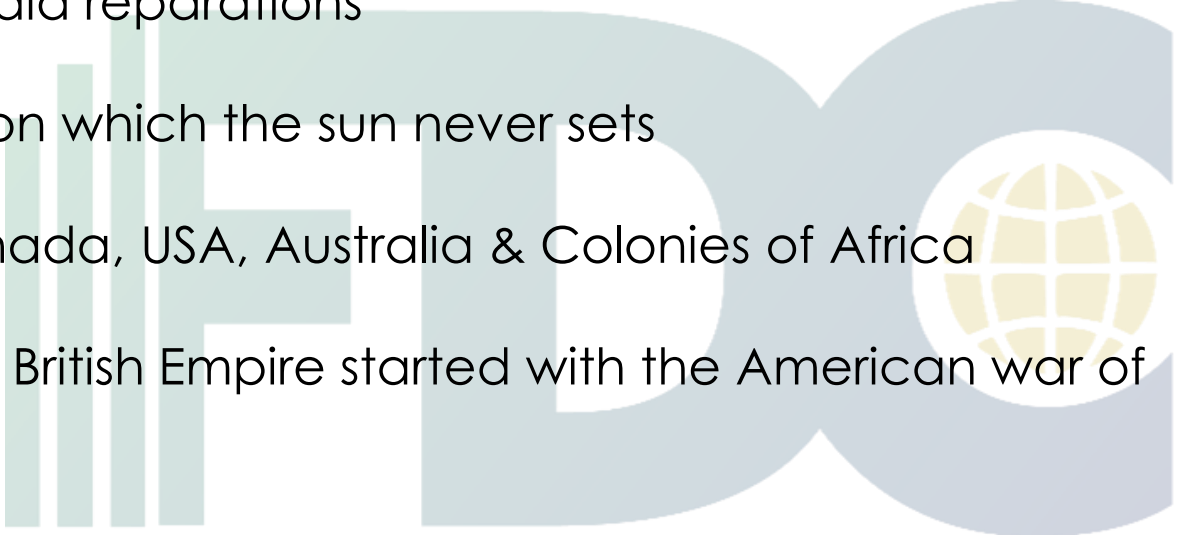

EMPIRES RISE & FALL IN HISTORY

MILITARY POWER AND WARS

- Conquerors shared the spoils
 - The vanquished paid reparations
 - The British Empire on which the sun never sets
 - Ranging from Canada, USA, Australia & Colonies of Africa
 - The decline of the British Empire started with the American war of Independence
 - Whoever wins the war takes all
 - Imperial wars followed by repatriations and spoils
 - Then economic and currency domination
- 

EVOLUTION OF THE US HEGEMONY

1600-1776

Europeans established colonies along the eastern coast of North America

Colonial Era

1775-1783

Americans fought for independence from British Rule and won

American war of Independence

1914 - 1917

The US emerged as a superpower after World War I & II Played a leading role in shaping the international order & established military bases worldwide

World Wars & Global Influence

1947-1991

The U.S. and the Soviet Union competed for global influence, with the U.S. forming alliances and providing economic and military aid to many countries (IMF, Worldbank, e.t.c)

Cold War

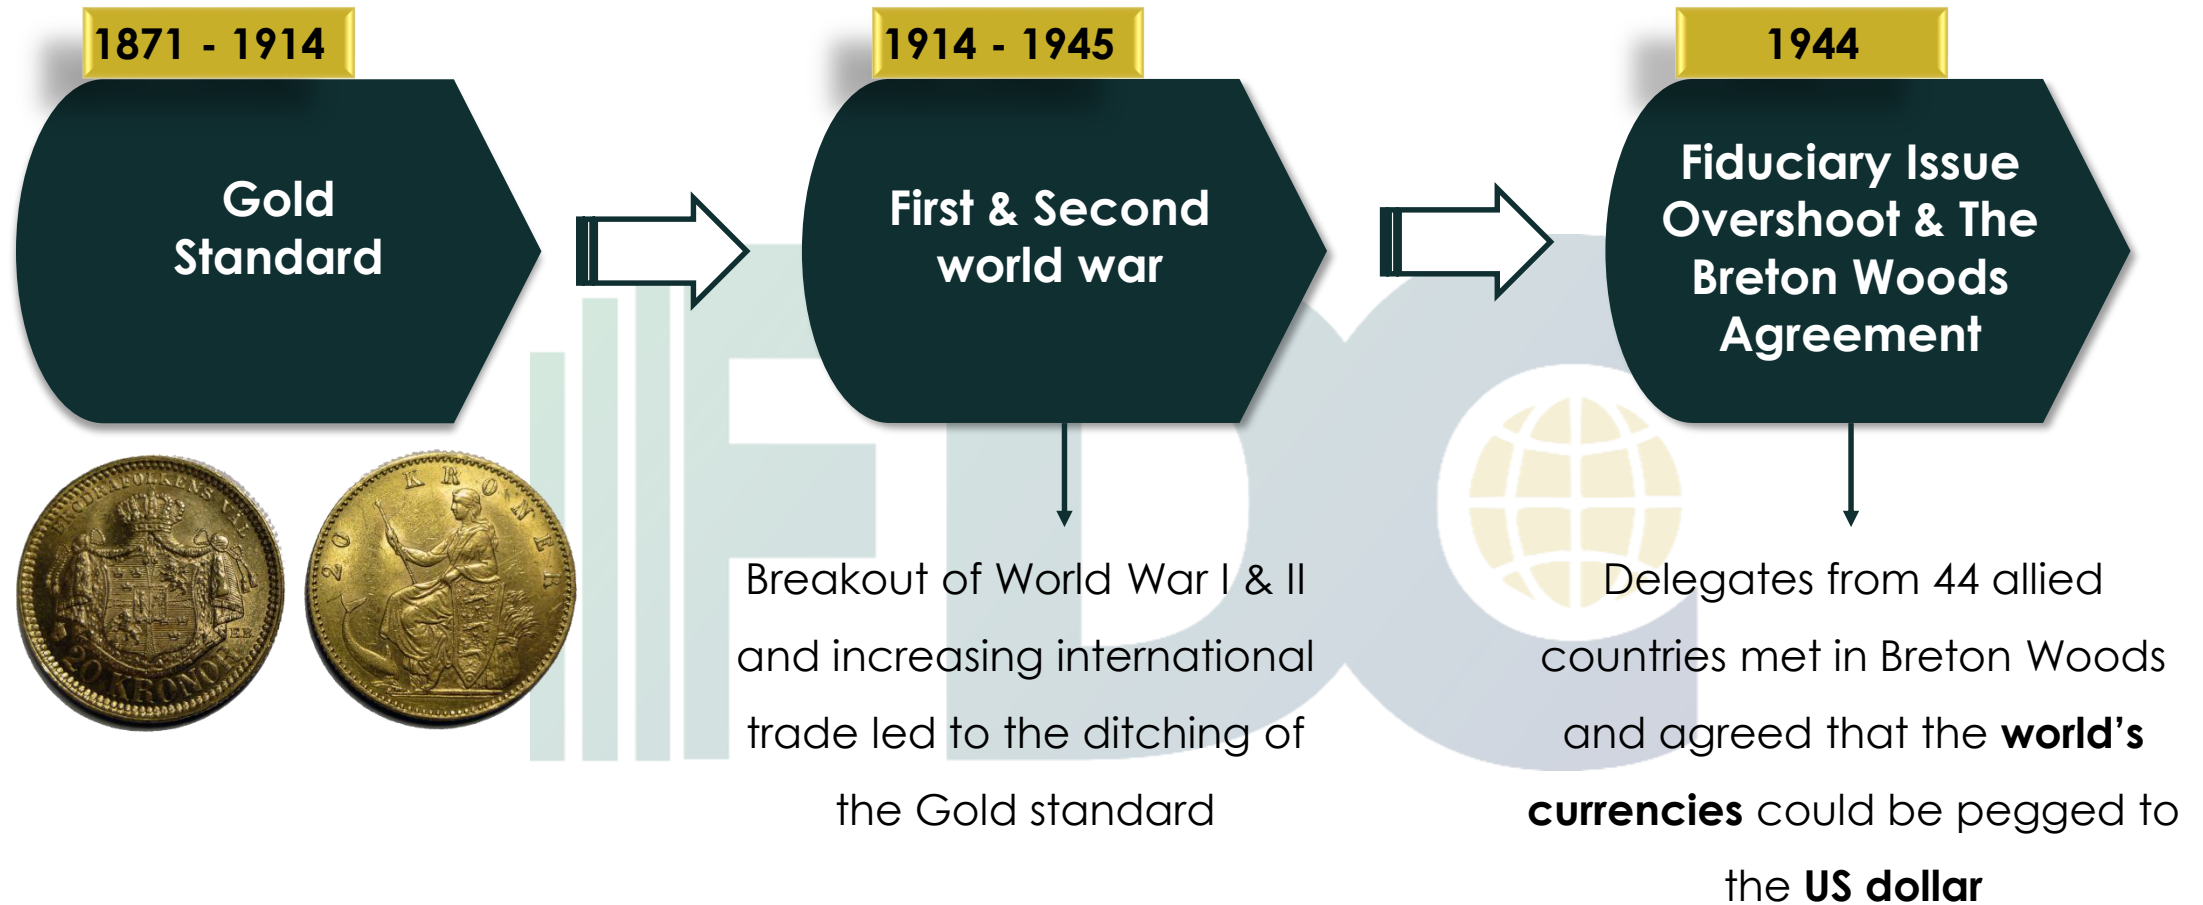

1991- Present

The U.S. remained a dominant global power. Expanded its economic and cultural influence worldwide

Post-Cold War Era

To the victor belong the spoils

THE EVOLUTION OF RESERVE CURRENCY

- British Empire & the pound sterling as reserve currency
- After World war II and the cold war, the US dollar has been the reserve currency of the world

THREAT TO THE HEGEMONY OF THE US

US Global dominance - Economic and Military

- NATO
- OECD
- G7
- G20

The threat to the hegemony of the US by Russia & China

- De-dollarization of the dollar
- BRICS

Empire come, empire go

SCRAMBLE FOR AFRICA 2.0

KEY GLOBAL TRENDS

US FED STRESS TEST – 23 BANKS

- The Fed conducted a stress test of the 23 largest banks in the US
- All Banks passed the test despite the banking turmoil in early 2023 (failure of Silicon Valley Bank, Signature Bank, and First Republic Bank)
- However, the test showed relative weakness among midsize banks and regional banks
 - Had the lowest capital ratios
 - Raised concerns for investors and policymakers

Scenario
Severe global recession leading to 40% decline in commercial real estate prices & 38% in home prices
Unemployment rises to 10%
Result
All 23 banks will have collective losses of \$541 billion
Capital to fall to 10.1% from 12.4% (passing grade – at least 4.5%)

BRICS ACCEPTS APPLICATION FROM 6 OTHER COUNTRIES

- BRICS accepted applications from six other countries

Argentina

Egypt

Ethiopia

Saudi-Arabia

Iran

UAE

- Expected to become a full member on January 1, 2024
- 5 democratic and 6 autocratic states
- Bringing the total number of member countries to 11
- Expansion of BRICS brings its share of the global economy to 36% of global GDP
- Surpassing G7 countries: 32.1%
- The group's share of global trade is likely to reach 50% by 2050 from its current level of 16%
- Egypt and Ethiopia—Africa's second and third most populous countries
- The inclusion of both countries gives the African continent a stronger influence
- Saudi Arabia and the United Arab Emirates (together with Iran) will supply more financial influence

GLOBAL ECONOMY SHOWING RESILIENCE

- Most advanced economies experiencing a soft landing
- Despite central banks' monetary tightening and geopolitical shocks
- Global economic resilience is due to:
 - Increased consumer spending supported by household savings accumulated during the pandemic
 - Easing inflationary pressures as global commodity prices decline
 - Tight labour market

GDP growth (q-o-q; %)

GLOBAL ECONOMY SHOWING RESILIENCE

- Eurozone unemployment rate remained unchanged at 6.4% in July
- Suggesting that the labour market is still tight
 - This is stoking inflation concerns for the ECB
 - Inflation was flat at 5.3% in August
- EIU upgrades 2023 global GDP growth rate to 2.3% from 2.2%

CHINA'S SLOW ECONOMIC RECOVERY

- China's economy slowed to 0.8% in Q2'23 from 2.2% in Q1'23 on a quarterly basis
- Posted an annual growth rate of 6.3% in Q2'23 due to base-year effect
- China's economic recovery has been weighed down by its crumbling real estate sector
 - Country Garden, one of China's largest developers, is in crisis
 - Expected to post an estimated loss of \$7.5bn in H1'23
- Consumer spending, business investment, and exports declining

CHINA'S ECONOMY DIVERGING FROM GLOBAL TREND

- China recorded a deflation rate of -0.3% in July
 - Contrary to the global trend of high inflation
- The government's response to the economic slowdown has been poor
 - China's Central bank cut interest rates by less than expected
- Nigeria to benefit from China's lower export prices
 - China accounts for 26% of Nigeria's total imports

JACKSON HOLE ECONOMIC POLICY SYMPOSIUM

Summary of Jerome Powell's Speech

- Reiterated the US Fed's commitment to bring down inflation to the 2% target
- Will require below-trend economic growth and softening of the labour market
- Indicating more policy rate hikes in Q3'23 & Q4'23
- Consumer spending remains resilient and the housing sector is now recovering due to the tight labour market
 - Real wage growth increasing in the face of declining inflation

OIL PRICES

- Oil prices hit a 10-month high owing to supply cuts by Russia and Saudi Arabia
 - Brent crude price rose above \$91pb for the first time since November 2022
 - Saudi Arabia to further extend supply cuts to December
- Brent prices are expected to rise to \$95pb by year-end
- Global crude oil supplies expected to improve on refinery maintenance

GLOBAL FOOD PRICE INDEX INCREASING AGAIN

- After three consecutive months of decline, the global food price index increased by 1.3% to 123.9 points in July
- Due to a surge in vegetable oil prices
 - Though sugar and cereal prices declined
- An uptick in global food prices will fuel imported inflation, especially in SSA countries which are net importers of food

ECONOMIC PERFORMANCE & POLICY OUTLOOK

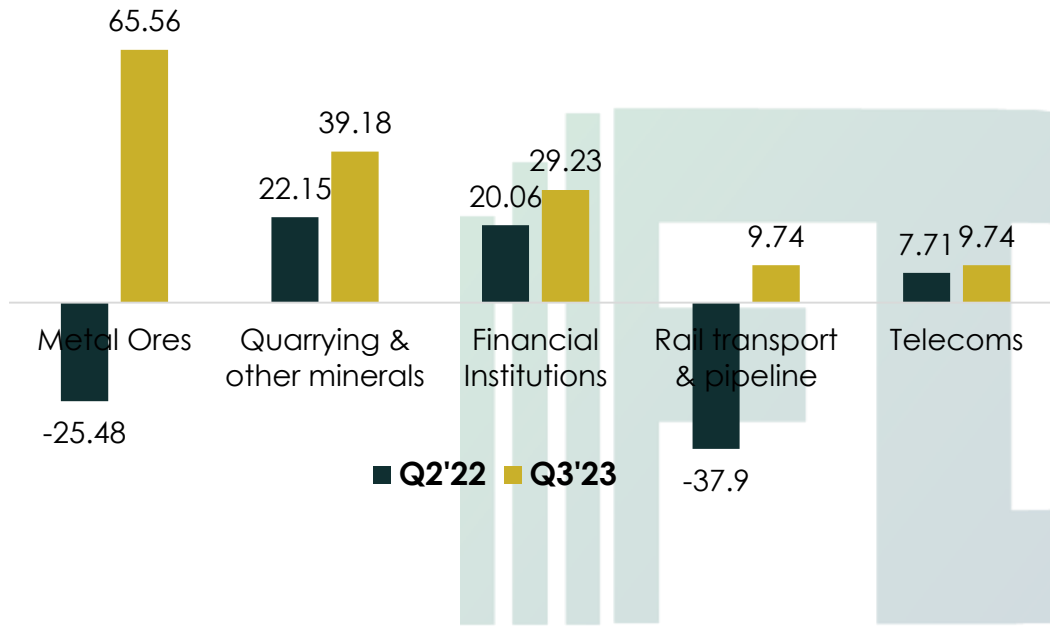

GDP GROWTH SLOWS TO 2.51% IN Q2'23 FROM 3.54%

- Real GDP growth slowed to 2.51% in Q2'23 from 3.54% in Q2'22
- Due to the:
 - Spillover effect of the naira cash crunch
 - Weak aggregate demand owing to high inflation
 - weak business investment

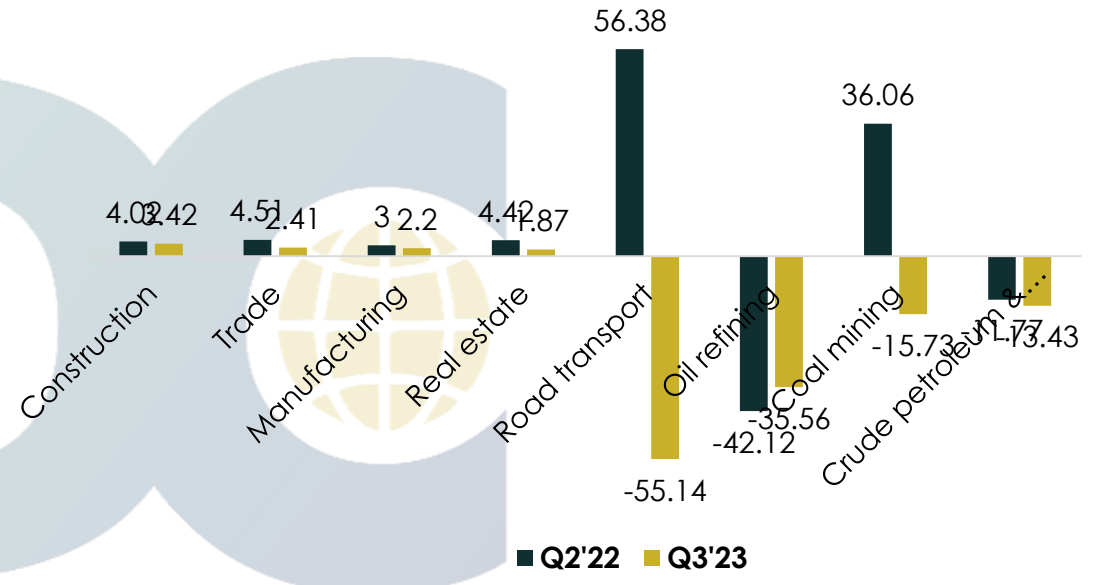

SECTOR PERFORMANCE

Expanding Sectors

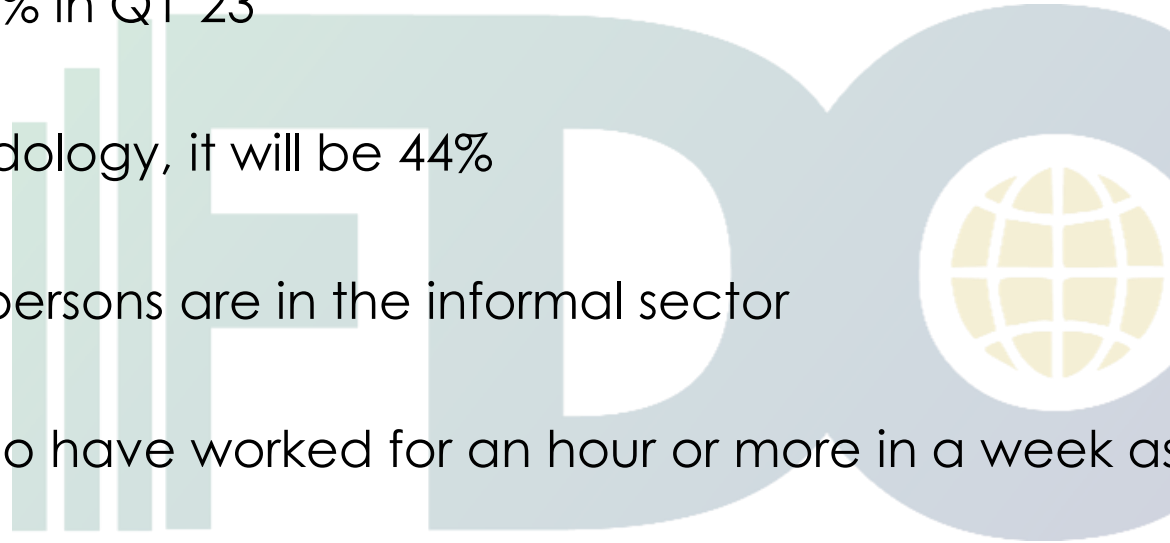

Slowing & Contracting Sector

- Expanding sectors are not employment-intensive
 - Limited impact on unemployment
- Slowing and contracting sectors are mostly job-elastic
 - Unemployment likely to increase

NEW UNEMPLOYMENT DATA - 4.1% (NBS)

- Nigeria reports new definition of unemployment
 - Rate now at 4.1% in Q1 '23
- Using the old methodology, it will be 44%
- 92.4% of employed persons are in the informal sector
- Consider persons who have worked for an hour or more in a week as employed
- Working age now 15 and above compared to the upper limit of 65 years in the previous methodology

WORKING POVERTY

Standard hour

$$\frac{N30,000}{30\text{days}} = N1,000/\text{day}$$

$$\frac{N1,000}{24\text{hours}} = N47/\text{hr}$$

What can N47 buy?

Using N30,000 minimum wage as a benchmark

Poverty level in Nigeria is alarming

Man hour – 160hours in a month

$$\frac{N30,000}{160\text{hrs}} = N187.5/\text{hr}$$

Can N188 buy lunch?

INFLATION SURGES TO 24.08% IN JULY

- Headline inflation rose sharply by 1.29% to 24.08% in July
 - From 22.79% in June
- Monthly inflation up 0.76% to 2.89%
 - Annualized at 40.77%
- Higher inflation largely reflects the impact of policy changes on food and transportation costs
- Food inflation jumps by 1.73% to 26.98%
 - Subdued effect of the harvest on food prices
- Core inflation (inflation less food and energy) increased by 0.41% to 20.47%

Inflation Rate

INFLATION TRIGGERS

Money supply growth

Up 36% (y-o-y) to N65.46trn in July

Higher Energy prices

Diesel price up by 3.66% to N850/liter (y-o-y)
Fuel price up 15% to N617/liter (y-o-y)

Higher Global Food Commodity prices

Global food price index up 1.3% to 123.9 points in July

Exchange rate pass through

Exchange rate for Import duty computation adjusted to N770/\$
Naira fell by 22.9% to N921/\$ (y-o-y)

IMPACT OF POLICY CHANGES- BEHAVIORAL PATTERNS CHANGING

Consumers now patronize neighborhood shops

Reversal of Urbanization

Armed robbery & dollarization

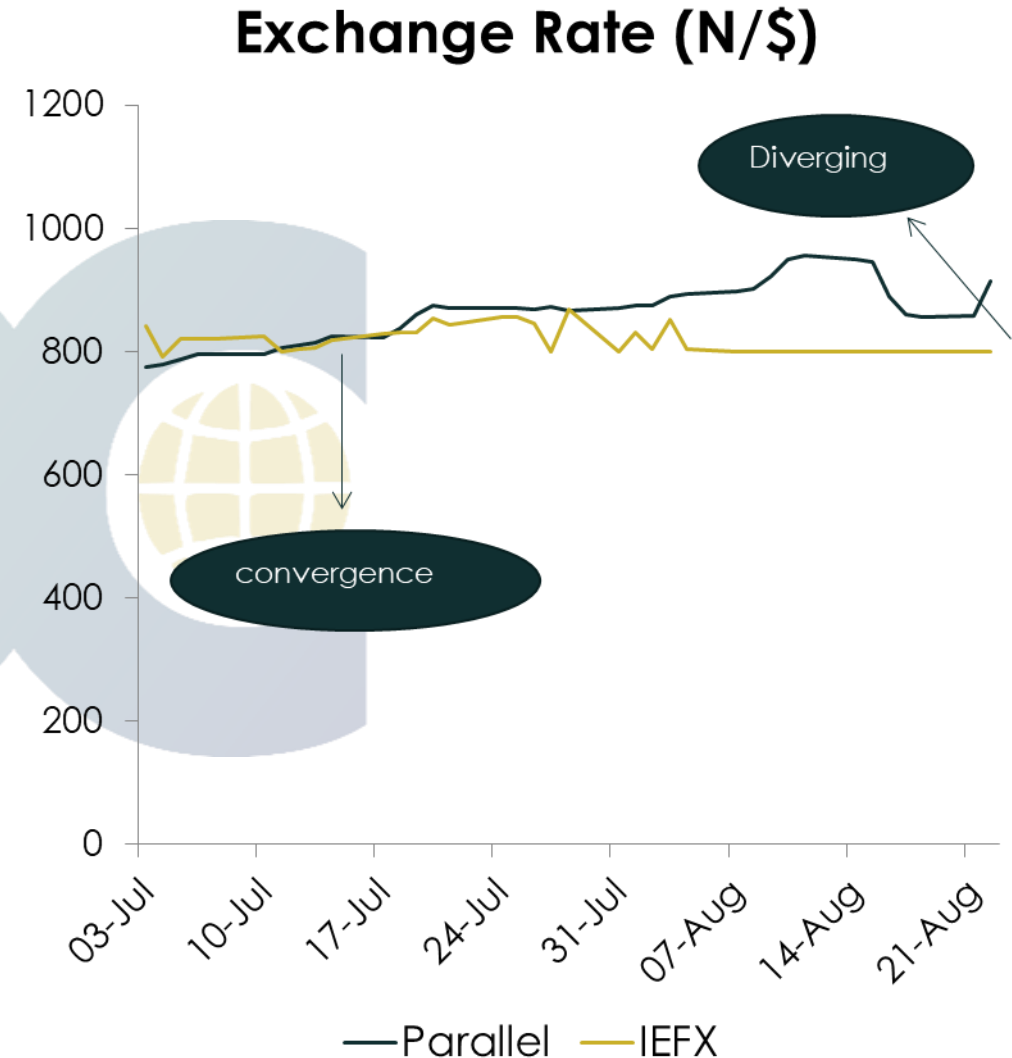

Retail cash flow squeeze leading to increased demand for distributor credit

MARKET LIQUIDITY & SHORT-TERM INTEREST RATES

- Banks' opening position averaged N280.57bn in August
 - A decline from the average of N563.29bn in July
 - Primarily supported by the CBN's effort to mop up excess liquidity through various policy instruments (OMO, NTB, CRR, etc.)
- CBN begins OMO auction after 7 months
 - The stop rate on the 362-day bill was 14.49%p.a
- 1-year T-bill rate inches upwards to 13.97%p.a from 9.8%p.a
 - The negative real return on investment narrows to a rate of 10.11% from 12.99%
- FAAC disbursements to the three tiers of government increased by 6.51% to N966bn in July from N907.05bn in June
 - The increase was supported by currency depreciation and lower fuel subsidy payments

CBN RETURNS TO EXCHANGE CONTROLS

- Initial convergence of the exchange rate after the announcement of FX market reforms
 - The parallel market rate premium fell by 67% to N91.96
- But diverged due to high naira speculation and forex supply shortages
 - The parallel market rate touched a low of N955/\$
- NNPC's \$3bn emergency crude oil repayment provided temporary relief to the naira
 - Touched a high of N855/\$
- But not sustained as the naira fell back to close August at N922/\$
- CBN re-introduces exchange controls due to dollar shortages
 - The official-parallel gap widens to N121/\$

CBN RESTORING MARKET STRUCTURE – THE MORE, THE MERRIER

- BDC operators are back with squeezed margins
- New set of operational guidelines introduced
- The difference between BDCs' buying and selling rates for foreign exchange limited to 2.5%
 - Down from the previous 5%
- This is unlikely to stabilize the foreign exchange market
- Foreign exchange supply remains sub-optimal

JP MORGAN ESTIMATES NET FX RESERVES AT \$3.7BN

CBN Audited Financial

External Reserves: \$32.4bn

IMF SDR: +\$5.0bn

Total

\$37.40bn

Encumbrances

FX forwards \$6.8bn

Securities lending \$5.5bn

Currency swaps \$21.3bn

Total

-\$33.6bn

Net FX Reserves

= \$3.7bn

- Policy changes were made on inaccurate data
- Gross external reserves (30-day moving average) not the true position of the FX reserves
- Low net FX reserves to foster reform continuity to boost FX inflows

EIU OUTLOOK

- Mr Tinubu's pro-market agenda likely to be watered down by high political risk accentuated by
 - Chronic insecurity in many areas
 - High inflation & unemployment
- Economic growth to slow in 2023-24 owing to contraction in domestic demand supported by
 - Spiraling inflation
 - Increased monetary tightening

EIU OUTLOOK

- Growth to accelerate to multi-year high in 2025
 - Shock of market reforms abate
 - Investment in recently deregulated power sector
- Foreign exchange scarcity to persist in the short-term
 - CBN to revert to heavier management of the exchange rate in late 2023 to tame rapid price rises
- Nigeria's oil & gas sector to remain crucial to the prospects of the wider economy
- Dominating its export profile & accounting for about half of government revenue

POLICY OUTLOOK

- Pro-market reform policies to continue
- Nigeria will end fuel import dependence in 2024
- Official rate devaluation by 63% since the acting governor's appointment
- The exchange rate divergence narrowed significantly before widening again
 - Based on trading partner competitiveness
- The naira is likely to depreciate further before recovering
- Spreads have narrowed but forex liquidity is inadequate
- Need to sharply increase interest rates to mobilize national savings
 - Ratio is currently 27% of the GDP

POLICY OUTLOOK

- Oil production will not increase as long as oil vandalism continues
- The Niger Delta crisis will remain a deterrent to investors
- The PIA and host community crisis will cause major clashes amongst tribes
- The commercialization of NNPC will make the outlook for investors more favorable
- Dangote refinery will make downstream and midstream more competitive
 - Serving West Africa and leading to better infrastructure across the region
- Electricity reform allowing states to generate, transmit and distribute
 - Will trigger GDP output growth as productivity improves by at least 2-3%
 - Despite the tax drive and subsidy reduction

POLICY OUTLOOK

- Fiscal deficit as a percentage of GDP will remain above 4%
- Wage review and productivity gains will increase consumer spending in late 2024
- The erosion of external reserves buffers as revealed by the audit means a shallow forex market
- The naira will fall before recovering in 2024

STOCK MARKET

NGX OUTPERFORMS OTHER MARKETS IN AUGUST 2023

Market	YTD Return	Driver
SSE	 5.20%	<ul style="list-style-type: none"> • Slowing economic growth momentum • Political tension weakened market sentiment

NGX IN AUGUST 2023

- NGX closed the month on a positive note (3.44%)
- The All Share Index (ASI) inched to 66,490.34 during the month
- Surpassing a 15-year high of 66,371.2
- Market gains supported by portfolio rebalancing by institutional investors
- Investors positioned for mouth-watering dividend
- Volatility of effective interest rates
- 33% gains in BUA foods fueled the performance in the consumer goods space

STOCK MARKET OUTLOOK

- Performance up 3.44% in August 2023
- Driven by excess liquidity in the money market
- Depressed interest rates making dividend yields relatively attractive
- Depreciated Naira value at the forex market making investors buy stocks with trapped Naira
- Earnings performance showing extraordinary income is attracting opportunistic investors

STOCK MARKET OUTLOOK

- When the Naira settles in the forex market, new monies will come in
- Companies will need more Naira to replenish inventories
- Borrowing needs for logistics, inventories, advertising & promotion will increase sharply
- Distributor finance and funding requirements will be borne by manufacturers

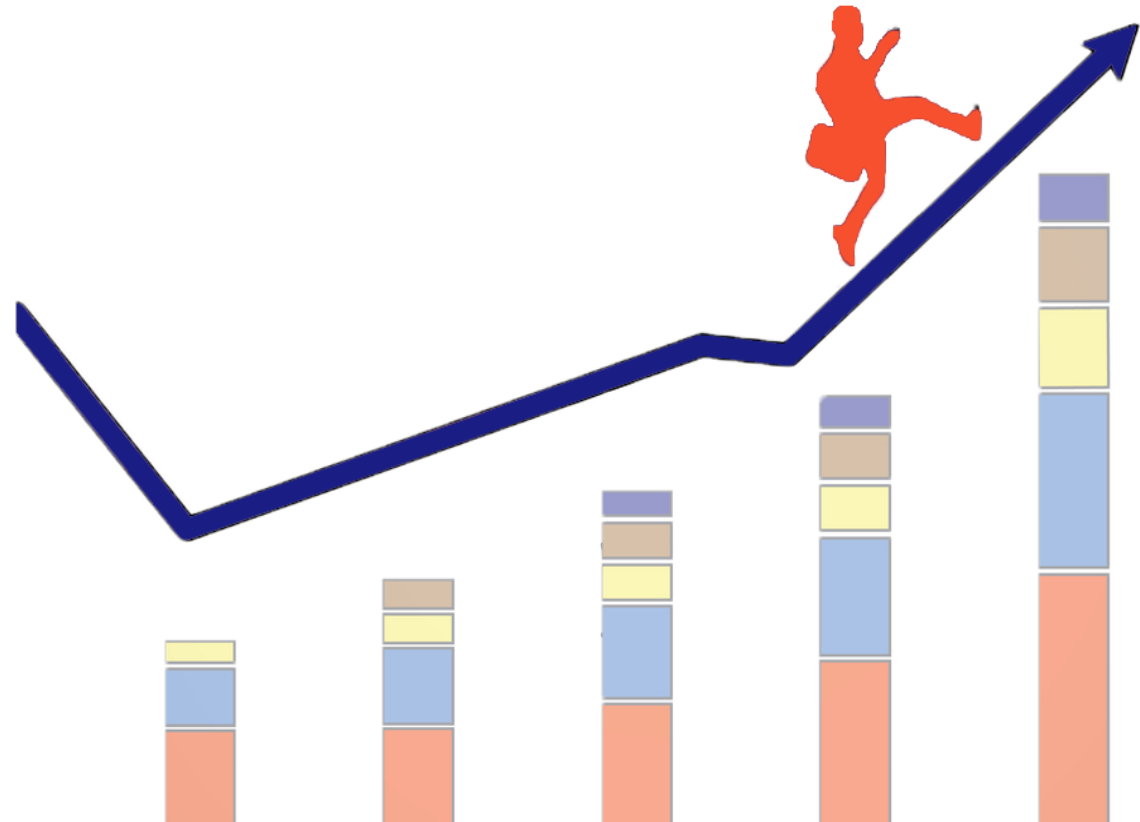

STOCK MARKET OUTLOOK

- The price of diesel and alternative energy costs will squeeze margins
- National wage review will increase purchasing power but not enough to compensate for revenue decline

SECTORS THAT WILL THRIVE

- Telecommunications & PSB's
- Fertilizer manufacturing
- Building materials
- Food processing & storage
- Hotels & hospitality
- Insurance
- Distilleries & spirits
- Airport handling companies
- Infrastructure & road concessioning
- Construction

SECTORS THAT WILL STRUGGLE

- Retail Banking
- Carbonated soft drinks
- Aviation
- Flour milling
- Consumer retail
- Road transportation

MARKET PROXIES

FAAC ALLOCATION

- Total FAAC disbursement was up 6.5% to N966.11bn in August
- Largely due to the:
 - Removal of the subsidy – gulped N400bn monthly (NNPCL)
 - Exchange rate difference (contributed 16% to the total allocation)
- FAAC allocation is expected to increase further in September
- Supported by
 - Higher oil prices, naira depreciation, and NNPCL disbursement

DOMESTIC OIL PRODUCTION

- Oil production fell by 3.08% (40,000bpd) to 1.26mbpd in July
 - Below the country's oil production capacity of 2mbpd and the OPEC quota of 1.74mbpd
- The decline was due to repairs in major oil terminals and lingering crude oil theft
 - Nigeria still loses 400,000 barrels of crude oil daily (\$4 million) to theft
 - Despite efforts by the government to curb the menace
- Active oil rig counts remained flat at 14 in July
- Oil production is likely to increase in August due to the resumption of oil exports in Forcados Terminal

Warri	3	6	3	2	1	1	8
Onne	0	0	0	0	0	0	0
Total	8	19	8	11	12	9	12

- The total number of ships awaiting berth across the six major ports in Nigeria rose to 12 in August
 - 33.3% higher than 9 in July
- Warri port was the most congested due to the ongoing reconstruction of the Escravos breakwaters
- Onne port remained underutilized

VALUE OF TRANSACTIONS

- Total value of transactions across the e-payment channels rose by 7.47% to N54.36trn in August
- Due to the rise in the use of digital channels for transactions and mobile payments
 - Supported by efficiency in e-payment platforms
- However, POS transactions declined for the second consecutive month
 - As the new POS charges announced by AMMBAN in July boost other payment channels' usage

GLOBAL AVIATION UPDATE - IATA

- International aviation players are beginning to make profits
- Significant improvements in earnings by network carriers in Europe, North America, and the Middle East
- Travel hubs like Heathrow, Dubai, Frankfurt and Munich are reporting pre-pandemic traffic
- Airlines in Europe generated approximately \$4.1bn in profit in 2022
- Tourism and hospitality have reached 70-75% of pre-COVID levels
- Main beneficiaries being Mauritius, Morocco, Greece and the Caribbean

Chart 2 – Global air passengers, revenue-passenger kilometers (RPKs), billions per month

Three vertical bars of varying heights in a golden-yellow color are positioned to the left of the title.

GLOBAL AVIATION UPDATE - IATA

- The new wave of COVID has not impeded vacation spending
- Duty-free services are back on airlines and hub airports
- Financial performance within Latin America and Africa is showing slow improvement
- SSA remains a difficult market with economic infrastructure and connectivity challenges
- The rise in the price of jet fuel is also feeding into airfares
- Regional competition among carriers remains stiff
- Ethiopian Airlines is leading the pack both in passenger and cargo traffic
- Rwanda Air and Kenya Airways are close rivals

DOMESTIC TRAVEL HIGHLIGHTS

- Nigeria to host African aviation summit 2023
- New aviation minister suspends Nigerian Air project
- FG to shutdown old terminal at Murtala Muhammad International airport from October 1
- Plateau and Value jet sign pact on Jos flight operations
- Ibom Air ramps up A320 ACMI capacity
- Max Air temporarily shut down operations
- Azman Air shuts down operations and puts staff on unpaid leave

NIGERIAN MARKET

- Airline IATA exchange rate remained at N800/\$
- Most airlines are selling tickets in dollars only
- Discount fares are not in the inventory displayed
- Nigerian travelers are being screwed compared to other African markets
- Direct flights to the USA are reporting high load factors
- Delta and United reaped rewards of back-to-school and seasonal demand
- European carriers including British Airways, Lufthansa, Air France, and KLM suffered from the airspace closure of the Niger Republic

OUTLOOK FOR THE MONTH OF SEPTEMBER

0101

POLITICAL OUTLOOK

- Our projection of the outcome of the presidential election petition

Electoral malpractice acknowledged but not enough to change outcomes – **Incumbent remains**

- Outcome of the PEPT
 - Affirmed election of the President
 - Dismissed petitions of presidential candidates of both leading parties (PDP & LP) as allegations were not substantial enough to change outcomes
- However, both candidates have now proceeded to the supreme court to appeal against the judgment by the election tribunal
- No matter what happens , **outcome remains the same**
